STUDY VISIT REPORT
(T. Y. B. Sc. Microbiology)

To
Akshay Blood Bank
Hadapsar, Pune

The department of Microbiology had organised a study visit for T. Y. B. Sc. Microbiology students on 27th February 2024 at 9.00 am to above organisation located at Hadapsar, Pune. Concerned students' study most of the techniques and processes professionally worked out in blood banks, as a part of their curriculum.

During visit, the experts of the institute gave demonstrations of the techniques of blood collection, its separation into different blood components, maintenance and storage of these components, and other routine practices of the blood bank to our students (total students present- 46). We are thankful to all the staff of Ashay blood bank for their guidance and allowing our students to visit the Institute.

The subject teacher- Dr. N. B. Patil of Microbiology department had taken the responsibility of this activity.

Subject: Request for allowing our students to visit your blood bank

Dear Sir,

We are very thankful to you to make us aware about various activities related to blood banking, blood collecting, blood storing, human issuing and the important test carried out before issuing. We don't have an idea about how blood banking is running.

PDEA - Wagline College of Arts, Commerce and Science, Saswad is thankful to you for allowing our students to visit the blood bank on Tuesday, 27th February 2024 and giving your valuable time.

Thanks & regards,

Yours faithfully,

PRINCIPAL

Subject: Permission for the study visit of T. Y. B. Sc. Microbiology students to your blood bank.....

Dear Sir/Madam,

Our Microbiology department is interested to arrange the study visit to Akshay Blood Bank, Hadapsar for T. Y. B. Sc. students. As per our conversation on the telephone you have permitted for the same on Tuesday, 27th February 2024.

Our T. Y. B. Sc. students learn various blood bank practices as a part of their curriculum. We will be very thankful to get following demonstrations from you.

1. Blood grouping test by slide and tube method
2. Coomb's test
3. Elisa for HIV and Hepatitis
4. Blood smear examination for Malarial parasite
5. VDRL test
6. Separation, storage and maintenance of blood and blood components

Kindly allow us for the above mentioned as per decided.

Thanking you in anticipation.

Yours faithfully,

PRINCIPAL
