Add-on Course on

Career Opportunities in Banking & Finance

Report

Introduction:

Department of Economics, Waghire College Saswad organised add on course on Career Opportunities in Banking & Finance in academic year 2022-23 Period was 16 Jan 2023 to 28 February 2023. The field of banking and finance is a dynamic sector that offers a wide range of career opportunities. With globalization and advancements in technology, banking and finance have become more sophisticated, and new job roles are emerging every day. This report is a summary of a 30-hour add-on course, which was attended by 40 students of arts faculty, to provide insights into the various career opportunities that are available in banking and finance.

Discussion:

During the 30-hour course, students were introduced to various career opportunities in the banking and finance sector. We discussed the roles of investment bankers, commercial bankers, risk managers, wealth managers, and financial planners among others. The course covered the qualifications and skills required for each of these roles.

Investment Banking:

Students learned that investment bankers specialize in providing financial advice to organizations and government entities interested in buying or selling assets. Due to the high stakes involved, people who are meticulous, analytical and have excellent interpersonal skills can excel in this role.

Commercial Banking:

Commercial bankers serve individuals and businesses with a wide range of financial services, including setting up accounts, offering credit facilities such as loans, and providing financial guidance. Good communication and relationship-building skills are key for success in this field.

Risk Management:

Risk management involves analyzing potential risks associated with financial investments and transactions, and developing solutions to minimize the risks. Due to the ever-changing nature of the field, risk managers must be good planners with strong analytical skills.

Wealth Management:

Wealth managers advise clients on investment opportunities, asset allocation, and risk

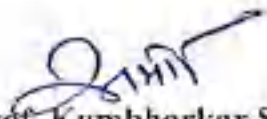

management. This role demands excellent customer service and communication skills, as well as a passion for finance and investments.

Financial Planning:

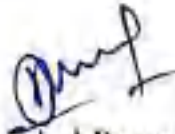

Financial planners assist individual clients who need help with setting and achieving financial goals. They provide guidance on personal finance, retirement planning, and investment strategies. Financial planners must be well-versed in tax, insurance, and financial planning strategies.

Conclusion:

In conclusion, the course provided a comprehensive overview of the numerous career opportunities available in the banking and finance sector. We hope the students gained an understanding of the roles and skills required to excel in the field. The ever-evolving nature of banking and finance means that there is always a high demand for skilled professionals in the industry, and by attending this course; students have opened up a range of career opportunities for themselves.

Waghire College of Arts, Commerce and Science, Saswad
Academic Year 2022-23

Department of Commerce

One Day Workshop on "Career Opportunities in Commerce"
(Date:-28/03/2023)

A One Day Workshop on "Career Opportunities in Commerce" was organized for students of commerce department on 28/03/2023 at Waghire College, Saswad, U.A. Mr. Rajendra Dangi of R.D. Institute, Pune was invited as a resource person for the workshop. Principal Dr. Pandit Shelke, Vice Principal Dr. Subhash Wavhal, Head of Department of Commerce Dr. Kishor Lipare, All faculty and students of Department of Commerce were present for the programme. The program started with the felicitation of the chief guests, after which the keynote speaker of the program Mr. Rajendra Dangi in his orientation speech gave detailed information about the opportunities available to the students of commerce. In today's era of globalization, accounting, auditing, taxation, G.S. T, there are many job and employment opportunities available in these fields. He asserted that students need to acquire certain skills to take advantage of this opportunity. On this occasion, Dr. Pandit Shelke in his presidential address expressed his gratitude to Mr. Rajendra Dangi for providing good career guidance to the students of commerce department. In today's dynamic world, there are many opportunities available to Commerce students, for which students should enhance their academic qualifications and develop good communication skills and interview techniques, he urged. The program was organized by Commerce Department successfully under the guidance of Pandit Shelke. Total 91 students were present for this workshop.

Notice for F.Y. B.Sc. Zoology and S.Y.B.Sc Zoology students

This is to inform all the students, that the Department of Zoology is organizing a Guest Lecture "Basic of Apiculture" for the students on 22nd September, 2022.

The lecture aims to raise awareness about the importance of Apiculture, honey bee's role in pollination and Apiculture as entrepreneurship.

Students should attend the lecture series from 22nd September, 2022, at 9.00 am to 3.00 pm in Zoology Laboratory.

Report on Guest lecture on Basics of Apiculture under DBT Scheme

The Zoology department had organized a guest lecture on Basics of Apiculture on 22/9/2022 for the students of S.Y.B. Sc. Zoology from 9.00 am to 3.00 pm. The main objective of organizing this lecture was to make the student understand the basic part of Apiculture like different types of honeybees used in apiculture, their habits and nesting behavior, the ecological role played by honeybees, the importance of honeybees to human's life, the different equipment's used in rearing, the products obtained from honeybees, the economics involved and the skill based employment provided by apiculture. Guest speakers invited were Mr. Prashant Gawade and Mr. Alpesh Shah from Kendriya Vidnyan Kendra, Malegaon Budruk, Tehsil Baramati. 30 students benefitted from this lecture.

Training Program on
'Isolation, enrichment and enumeration of bacteriophages'
for T.Y.B.Sc. Students

(Under DBT STAR scheme)

The department of Microbiology had organized two days training program for T.Y.B.Sc. Students on 9th and 10th March 2023. It was organized in collaboration with Mahatma Phule College, Pimpri. T.Y.B.Sc. Students are learning about bacteriophages, their isolation and enrichment as a part of their curriculum. The idea behind this training program was that, students of T.Y.B.Sc. class are having this experiment in their practical course II. Enrichment and isolation of bacteriophages is tricky process, so we arranged an expertise in this field to give hands on session to our students. Dr. Sangita Ahiwale is the person in this field who could guide step by step in Bacteriophage cultivation. The novel use of bacteriophages in treating certain infections caused by antibiotic resistant organisms was introduced by our guest. Fifty-four T. Y.B. Sc. students participated in the training session.

On 9th March 2023, in the inaugural function, MS. V. N. Ganvir conducted the ceremony. Smt. H. V. Sonawane introduced the idea of the training program. Dr. Nita Patil introduced guest Dr. Sangita Ahiwale, HOD, Microbiology, Mahatma Phule College, Pimpri. Then Principal Dr. Sushama Bhosale felicitated the guest Dr. Sangita Ahiwale and gave her best wishes for the activity. Ms. Manasi Joshi expressed vote of thanks.

In hands on session, Ahiwale madam and her team mates Ms. Mangal Shinde and Ms. Aishwarya Walunj assisted in all the steps of enrichment of bacteriophages from sewage water source. On second day after the lecture session, they showed the steps required in diluting the phage particles and then carrying out plaque assay. Students were excited to see the plaques developed by bacteriophages.

The whole training program was very exciting; full of knowledge, and students actively participated in all session.

Subject:- Invitation as Expertise for conducting training course under DBT Star College Scheme

Dear Madam,

It gives us an immense pleasure to invite you as a Expertise to deliver a talk and hands on training of "Enrichment, Isolation and Enumeration of Bacteriophages." This training program is arranged for our T.Y.B.Sc. microbiology students. Your guidance in this regards would be very useful for these students to understand the concept of Bacteriophages and their novel uses. As per your telephonic conversation with Ms. H.V. Sonawane madam we have to schedule the training program on 9th and 10th Mar 2023 at 10.00 am onwards, hope that will be comfortable for you.

Thanks and regards

Yours Sincerely

Appreciation letter

To,

Dr. Sangita Ahiwale

Subject:- Regarding Hands on training session

Respected Madam

We are thankful to you and your team for visiting our college in microbiology department, for conducting hands on training of "Enrichment, Isolation and Enumeration of Bacteriophages" for our T.Y.BSc students. This training program has surely built up confidence of our students and staff members in cultivation and handling of bacteriophages. This hand- on training session has enriched the knowledge of Bacteriophages in our students and it will help them in their examination and real life. Your expertise in this field is invaluable.

Hope to continue with this co-operation in future.

Thanks and Regards,

Yours Sincerely

P. S. CHAUDHARY
Principal
Waghire College, Saswad

Hands-on training – Enrichment, isolation and enumeration of bacteriophage 9
March 2023

PDEA's Waghire College, Saswad
Department of Zoology
2022-2023

Notice for F.Y. B.Sc. Zoology and S.Y.B.Sc Zoology students

This is to inform all the students, that the Department of Zoology is organizing "Vector Borne Diseases and Water Borne Diseases its Control- Lecture Series" for the students from 2nd to 10th January, 2023.

The lecture series aims to raise awareness about the importance of "Vector Borne Diseases and Water Borne Diseases its Control, the role of vector, and their significance in improving health and how to control spread of the diseases.

Students should attend the lecture series from 2nd to 10th January, 2023 at 10.00 am to 1.00 pm in Zoology Laboratory.

Dept Co-ordinator

HOD
Dept. of Zoology
Waghire College, Saswad,
Tal. Purandhar, Dist. Pune.

PDEA'S

**Waghire College of Arts, Commerce and Science, Saswad,
Taluka Parner, Dist. Pune
Department of Zoology**

**"Vector Borne Diseases and Water Borne Diseases its Control- Lecture Series"
Organized by Zoology Department under the DBT- STAR College Scheme
2nd to 10th January, 2023**

For many decades, vector-borne diseases have been a major health burden for both underdeveloped and developing countries, including India. With better preparedness, the threat of climate change on vector-borne diseases may be negated. Rains during monsoon increase not only the risk of vector-borne diseases such as malaria, dengue, chikungunya but also that of food and water borne diseases as well as other skin infections. A greater risk of diseases such as dengue, malaria, seasonal influenza, leptospirosis, chikungunya, enteric fever, etc co-exists in COVID-19 cases. During covid pandemic to bring about the awareness among students, the lecture series was conducted by the Zoology department of Waghire College had organized Seven days Lecture series titled **"Vector Borne Diseases and Water Borne Diseases its Control"** on 2nd January to 10th January, 2023 under the DBT- STAR College scheme. During this lecture series, eminent guest speaker Dr. Vinod G. Sutar on vector borne and water borne diseases.

On 2nd January, 2023 after the inaugural function, Dr. V.G. Sutar, Training Consultant of Maharashtra State, from Joint Director of Health Services, Malaria, Filaria and Water borne Diseases, Indira Nagar, Phalenagar, Yerawade, Pune, Maharashtra 411006 conducted a lecture Series on **"Vector Borne and WBD Diseases"**

On 2nd January 2023 he informed the students about the **"Chikungunya Disease"**, its lifecycle of mosquito, biology, spread, symptoms, Treatment and control of the disease. Chikungunya is transmitted to humans by the bites of infected female mosquitoes.

On 3rd January 2023 he informed the students about the disease **"Dengue"**, the virus, lifecycle of its vector (mosquito), biology, spread, symptoms,

Treatment and control of the disease. He spoke on how small adoptive measures can be taken to control in day to day life by layman too. Small measures to Prevent Mosquito Bites like Use Insect repellent, Tips for babies and children, Natural insect repellents (repellents not registered with EPA), Treat clothing and gear, steps to control mosquitoes indoors and outdoors, how to Prevent Mosquito Bites When Traveling Overseas. The virus is transmitted to humans through the bites of infected female mosquitoes, primarily the *Aedes aegypti* mosquito. Other species within the *Aedes* genus can also act as vectors, but their contribution is secondary to *Aedes aegypti*.

On 4th January 2023 he informed the students about the disease "Filariasis / Elephantiasis", the virus, lifecycle of its vector (mosquito), biology, spread, symptoms, Treatment and control of the disease. Several species in the genera *Culex* can transmit the infective larvae that cause lymphatic filariasis. In Maharashtra *Culex quinquefasciatus* is a vector of lymphatic filariasis / Elephantiasis.

On 5th January 2023 he informed the students about the disease "Japanese Encephalitis", the virus, lifecycle of its vector (mosquito), biology, spread, symptoms, Treatment and control of the disease. He spoke on how small adoptive measures can be taken to control in day to day life by layman too. A small measure to prevent mosquito Bites. Japanese encephalitis virus (JEV) is a flavivirus related to dengue, yellow fever and West Nile viruses, and is spread by mosquitoes. JE virus is transmitted to humans through the bite of infected *Culex* species mosquitoes, particularly *Culex tritaeniorhynchus*.

On 6th January 2023 he informed the students about the disease "Kala Azar", the virus, lifecycle of its vector (Sand fly), biology, spread, symptoms, Treatment and control of the disease. He spoke on how small adoptive measures can be taken to control in day to day life by layman too. Visceral leishmaniasis is commonly known as kala-azar (KA), a word coined in the late nineteenth century in India, which means "black disease", referring to the greyish or blackish discoloration of the skin during infection, from the Hindi word for black (kala) and the Persian word for disease (azar). Kala-azar is a slow progressing

Indigenous disease caused by a protozoan parasite of genus *Leishmania*. In India *Leishmaniadonovani* is the only parasite causing this disease.

On 7th January 2023 he informed the students about the disease "Malaria", the virus, lifecycle of its vector (mosquito), biology, spread, symptoms, Treatment and control of the disease. He spoke on how small adoptive measures can be taken to control in day to day life by layman too. In the case of malaria, the vector is the *Anopheles* mosquito and the disease-causing organism is the malaria parasite. Humans and female *Anopheles* mosquitoes are both considered to be the parasite's hosts.

Vector Borne Diseases and its control - Lecture Series

MALARIA

- 40% of the world's population lives in malarious areas
- 3-4M million deaths every year
- 2-3-2 million disability-adjusted life years
- Increasing problem (re-emerging disease)
- Interglobal spread
- Drug resistance (100%)
- Vaccine against it
- Plasmodium species
- protozoan parasite
- Anopheles mosquito
- 4 protozoan species
- transmitted by mosquito

- P. falciparum
- P. vivax
- P. malariae
- P. ovale

Dr. Vinod Sutaone delivering his talk and presentation on vector borne disease

On 9th January 2023 he informed the students about the "ZikaVirus", its lifecycle of mosquito, biology, spread, symptoms, Treatment and control of the disease. Zika is transmitted to humans by the bites of infected mosquitoes. Most commonly, the mosquitoes involved is *Aedes*. The species can also transmit other mosquito-borne viruses, including dengue. They bite throughout daylight hours,

although there may be peaks of activity in the early morning and late afternoon. There is no specific treatment for Zika virus. So prevention is better than cure.

On 10th January 2023 he talked on "Water Borne Diseases", Purification of water, cause and spread, symptoms, Treatment and control of the water borne disease. He spoke on how small adoptive measures can be taken to control in day to day life by layman too. Small measures to prevent water purification. Steps to control water infection indoors and outdoors, how to protect our self during travelling Overseas. Water a life-giving liquid can also be a life-taking lethal fluid. Around 3.1% of deaths in the world are due to unhygienic and poor quality of water. Poor water quality becomes inevitable when water gets polluted with industrial waste, human waste, animal waste, garbage, untreated sewage, chemical effluents, etc. Drinking or cooking with such polluted water leads to waterborne diseases and infections such as amoebiasis, giardiasis, and toxoplasmosis.

Dr. Vinod G. Sataone explained the students what a Mosquito is; types of mosquitoes; identification of disease causing mosquitoes, the economy involved in mosquito transmitted diseases etc.

Through the Lecture series, F.Y. and S.Y B.Se. students were benefited.

Report on Guest lecture on Vermicomposting under DBT Scheme

The Zoology department had organized a guest lecture on Vermicomposting on 15/03/2023 for the students of F.Y.B. Sc. and S.Y. B.Sc. Zoology from 9.30 am to 1.30 pm. The main objective of organizing this lecture was to make the student understand the importance of vermicomposting in agricultural use. Vermicompost is a natural product obtained from earthworms. It enhances plant growth and causes maximum yield in plants. Vermicomposting provides self-employment too. Mr. Prashant Borawake, Environmentalist and Coordinator of Paani Panchayat NGO explained to the students, the different types of earthworms, the useful species observed in Saswad, vermicomposting process, the vermicompost bed and benefits of using the vermish and vermicompost in farming and gardening instead of inorganic fertilisers. 46 students benefitted from this lecture.

Report on Guest lecture on Wildlife organized under DBT scheme

The Department of Zoology had organized a Guestlecture on Wildlife on 13/10/2022 in the Zoology Laboratory from 11.00 am to 2.00 pm for F.Y.B. Sc and S.Y.B. Sc students. The speakers of the guest lecture were Dr. SuruchiPande, Vice Chairman of Ela Foundation and Head of Nilkanth Joshi Lab of Ethno-biology of Ela Foundation; Shri. RajkumarPawar, Coordinator of Ela Habitat, Pingori and Dr. Murlidhar Mahajan, Environment conservationist.

During the Guest lecture on Wildlife, Dr. SuruchiPande spoke on "Indian Religious Festivals- Forgotten nature, Conservation values and Wildlife crimes". She spoke about how all the festivals falling in different months of the year in our indian culture serve as conservation strategies with regards to the wildlife. Shri RajkumarPawar spoke "Our Surrounding and Wildlife Conservation". He spoke on how one needs to be vigilant and contribute even in slightest way in wildlife conservation through different examples. While Dr. Murlidhar Mahajan spoke on "Students- The major contributor in wildlife conservation". He emphasized on how students can bring about a major change in wildlife preservation when taught the importance of wildlife. The whole family of the student also is indirectly involved in conservation when a student seriously gets involved in wildlife conservation. From these lectures, 49 students from both the classes benefited.

Report on Workshop on Demo Practical's related to Extraction of different honey bee products under DBT Scheme

The Zoology department had organized a workshop on Demo practical's related to Extraction of different honeybee products on 25/11/2022 for the students of S.Y.B. Sc. Zoology from 10.00 am to 3.00 pm. The main objective of organizing this lecture was to make the student understand the extraction process used for extracting honeybee products like honey, beeswax, pollens, propolis and royal jelly. Mr. Sachin Kshirsagar and Manoj Gawade from the Kendriya Vidyan Kendra Baramatishowed the different equipments used for the extraction process and explained how it is carried out without causing any damage to the bees by using the equipments. They also showed the different products brought from their institution to the students. They emphasized that Apiculture provides not just self-employment to students but also can be used for pollination in farms by lending the bee boxes to the interested farmers at a price. 51 students were benefitted.

Report on Guest Lecture on "Snakes, snake bite awareness and precautionary measures to be taken after snake bite" organized under the DBT- STAR College Scheme

The Zoology department had organized a guest lecture on Basic Entomology on 25/4/2023 for the F.Y. and S.Y. B. Sc. Zoology students. The speaker for the lecture was Mr. Dattatray Murkute, a Wildlife Conservationist and Snake rescuer. The main objective of organizing this lecture was to make the student understand the difference between the venomous and non-venomous snakes, the identification of these snakes, characteristic features of certain venomous snakes found in Purandar tehsil, the basic precautionary measures while moving in snake occurring areas like grasslands, garbage dumping grounds, forests etc. the difference between the snake bites based on wound marks and the necessary first aid treatment measures to be taken after the snake bites. 48 students were benefitted from this lecture.

Training Program on
'Chromatographic Techniques and Basic techniques in Molecular Biology'
for T.Y.B.Sc. Students

(Under DBT STAR scheme)

Organised by

Waghire College, Saswad in collaboration with
MakelIntern and E-Cell IT
Kharagpur.

The department of Microbiology had organized two days training program for T.Y.B.Sc. Students in collaboration with MakeIntern and E-Cell IT Kharagpur. Fifty-four T.Y.B.Sc. students participated in the training session. T.Y.B.Sc. microbiology students are learning about different types of chromatographic and molecular biology techniques as a part of their curriculum. If they could get hands on experience of the same it would be easier to understand the concepts.

On 3rd October 2022, in the inaugural function, MS. V. N. Ganvir compared the ceremony. Smt. H. V. Sonawane introduced the idea of the training program. Mrs. Manasi Joshi introduced the guest Dr. B. Banerjee. Then Principal Dr. Sushama Bhosale felicitated the guest Dr. Devika Banerjee and gave her best wishes for the activity. Dr. Nita Patil expressed vote of thanks.

The organizing partner, MakeIntern, had provided two Mentors for conducting this program. On 3rd October 2022, Dr. Devika Banerjee had conducted session on Chromatographic Techniques. In the beginning she introduced students to basic principles of chromatography, its types and the application. Then she briefed about Thin Layer Chromatography and its advantages. In hands-on session students learnt about how to prepare solvent system, load sample on TLC sheet and develop it. In the afternoon session they were introduced to different types of column chromatographic techniques and their application in different fields such as protein/enzyme purification, pharmaceutical industries for the purification of various products. In hands on session, they performed one type of column based on Molecular sieving chromatography principle and the separation of sample was performed.

On second day of program, i.e. on 4th October 2022, second Mentor Dr. Chinmoy Patra Scientist from Aagharkar Research Institute, Pune had visited college to conduct session on, 'Basictchniques in Molecular Biology'. In his session he introduced students with various laboratory animals used for testing purposes and lastly he talked about Zebrafish as model which is been used widely for the testing purpose because of its simple anatomical structure. He showed students the larvae of Zebrafish and how easy it is to see various internal structures of the animal because of the transparent skin. Students were very excited to see that. The whole training program was very exciting; full of knowledge, and students actively participated in all sessions.

Report on Career opportunities in Data Science

The Departments of B.Voc (Computer Software Development) organized a guest lecture on the topic "Data Science: Prepare Your Career for Data Science" on 12 September 2022 for the students.

The main objective of this one-day Guest Lecture on "Data Science: Prepare Your Career for Data Science" is to make the students familiarize Data Science and Analytical applications are ruling the world. With an intent to tell the students about the scope of Data Science and Analytics in the current day Technological Advancements. The speaker, first, discussed the importance of the field which is booming in recent years. He also suggested the application areas in which Data Science and Machine learning is used.

Other Discussion Points:

Main topics that will be covered are:

- What Data Science is & how to learn Data Science?
- How should companies get started in Data Science?
- Machine Learning for Data Science & types of learning models
- Data collection & pre-processing
- Modelling concepts & performance Evaluation
- Data Science real-world applications.

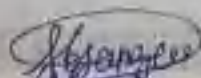

The speaker also suggested some areas in which students can find problems for their final year projects. The session was very interactive where the students posted some queries and the guest speaker clarified their doubts. Outcomes: After completion of the Guest Lecture "Career Opportunities in Data Science".

The students are expected to:

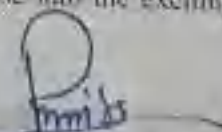

- Understand Data Science in a broader range.
- Understand how Data Science Applications are solving the current day problems.
- Analyze the real-world problems where Data Science could be applied.

There are 158 students were present for this workshop. Also shared valuable insights into the future of Data Science, painting a visionary picture of the evolving landscape and its potential impact on various sectors. The lecture left students with a deeper understanding of these transformative technologies and their far-reaching implications.

Overall, the guest lecture was an invaluable opportunity for students of Computer Applications and Computer Science to gain knowledge from an industry expert and gain a glimpse into the exciting future of Data Science and Analytics.

Report on "Opportunities in Software Testing"

The Departments of B.Voc (Computer Software Development) organised a guest lecture on the topic "Opportunities in Software Testing" on 6th February 2023 for the students.

In this interactive session the following points are covered:

- What is software testing?
- Need of Software Testing.
- Different types of Software Testing.
- Roles of Software Testing.

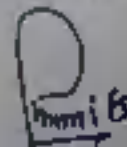

The speaker started from the basic concept of what product are types of companies and covered various topics in the field of software development. The role of tester and developer during software development was clearly explained by the resource person. Various stages in software development life cycle were discussed. To explain the SDLC process an example of eBay shopping website was also given and was explained how the various modules are designed and tested in step by step manner. Using this example students got the clear idea about the software development process.

The speaker talked about the Jira tool, which is a software application used for issue tracking and project management. She explained how this tool is widely used by agile development teams to track bugs, stories, epics, and other tasks. Then she talked on different testing techniques applied while developing and testing the software. The concept of black box testing and white box testing was explained in detail. The agile methodology which is used while creating any software product was also covered during the session. The Scrum and Kanban model used in agile methodology was explained in detail. The speaker also talked about why scrum model is widely used in any software company. The doubts and questions put by the students were also answered at regular intervals. Overall the session provided a great knowledge regarding software development and testing techniques used in software industry.

At the conclusion of the session the query round was held in which the students got an opportunity to put forward questions to satisfy their curiosity. The overall session was enlightening and the students enjoyed it. Total 153 students were present for this lecture.

Report:-One Day Workshop on Career Opportunities in C.A.

Career guidance workshop was organized by department on 28th March 2023 for T.Y.B.Com students on the topic "Career opportunities in C.A." As the key resource person for this workshop, the famous Chartered Accountant from Pune, C.A. Mr. Manish Bhandari was invited. The principal of the college Dr. Pandit Shelke, Vice Principal Dr. Subhash Waval, Head of Commerce Department Dr. Kishor Lipare as well as faculty and students of commerce department were present. The program started with the welcome of the chief guest. After this, Principal Dr. Pandit Shelke mentioned that this C.A. the best career in commerce branch. The result of this exam is very low but with proper guidance and continuous efforts it is possible to crack this exam. Therefore, he asserted that the students will get a good intellectual feast from the said lecture.

After this, the chief guest of the program Mr. Manish Bhandari in his lecture mentioned that CA in today's era of globalization. He discussed the opportunities in the field, exam Stages, Its syllabus and other related aspects in C.A. Being a Chartered Accountant, the signature of CA is more important than the signature of the Prime Minister of the country. CA is useful field for advice and guidance in the fields of direct and indirect tax, GST, tax planning and tax analysis, investment etc. There is an urgent need for CA. The demand of the people in the field is increasing tremendously, so the students of commerce stream CA. He appealed to make a career in the field. The program was coordinated by Dr. Kishor Lipare gave the

vote of thanks was done by Dr. Subhash Wavhal. In this workshop, 228 students of commerce department registered their participation.
