Add- on Course "Computer Fundamentals"

Report

Academic Year (2023-24)

The Department of physics conducted add- on course "Computer Fundamentals" for F.Y.B.Sc. and S.Y.B.Sc. students. The add-on course had been designed by taking into consideration of basics and fundamental concepts of computer. The add-on course of 2 credits designed to include theoretical as well as practical fundamental knowledge of computer. 33 (28 F.Y.B.Sc and 05 S.Y.B.Sc.) students of science background enrolled for the course.

The course is divided into two parts theory and practical. The theory lectures and practicals conducted from 13th February to 16th march 2024. At the end examination of add-on course conducted on 2nd April 2024.

Add-on Course on

Social Economic Development

Report

Introduction:

The add-on course on Social Economic Development was conducted for students from the Arts faculty to provide insights into the intersection of social and economic factors in driving development initiatives. This report summarizes the key learning's and outcomes of the course attended by 40 students.

Course Overview:

- **Duration:** The course spanned 30 Hours (Period 1 December 2023 to 15 January 2024)
- **Objective:** To understand the key concepts of social economic development and explore the strategies and challenges associated with fostering development in various contexts.
- **Topics Covered:** The course covered areas such as poverty alleviation, sustainable development, economic inequality, social entrepreneurship, and the role of community development initiatives.

Student Participation:

- **Total Number of Students:** 40 students from the Arts faculty participated in the course.
- **Engagement:** Students actively participated in discussions, group activities, and presentations throughout the course.
- **Diverse Backgrounds:** The cohort of students brought diverse perspectives and backgrounds, enriching the learning experience.

Key Learnings:

1. **Poverty Alleviation:** Students gained insights into different approaches to poverty alleviation, including microfinance, social welfare programs, and sustainable livelihood initiatives.
2. **Sustainable Development:** The course highlighted the importance of balancing economic growth with environmental sustainability and social equity for long-term development.
3. **Community Empowerment:** Students learned about the significance of community-based initiatives and participatory approaches in driving social and economic development at the grassroots level.

4. **Social Entrepreneurship:** The role of social entrepreneurs in creating innovative solutions to address social issues and drive economic development was explored.

Outcomes:

- **Enhanced Understanding:** The course deepened students' understanding of the complexities of social economic development and the interconnectedness of social and economic factors.
- **Critical Thinking Skills:** Students developed critical thinking skills to analyze and propose solutions for real-world development challenges.
- **Career Relevance:** The insights gained from the course have equipped students with relevant knowledge and skills for careers in development organizations, NGOs, government agencies, and social enterprises.

Conclusion:

The add-on course on Social Economic Development provided a platform for students from the Arts faculty to explore the dynamics of development through a social and economic lens. The engagement and enthusiasm of the students, combined with the comprehensive coverage of key topics, contributed to a fulfilling learning experience. It is expected that the knowledge and skills acquired during the course will empower students to contribute meaningfully to social and economic development initiatives in their future endeavours.

Report on Add on course

Aiming to provide an intense interactive Add-on course **Project Development Skills** for the students. The course was held in the academic year 2023-24 from 03/03/2024 to 20/03/2024 with aim of bringing awareness about entrepreneurship and highlighting opportunities. We are impressed by the comprehensive curriculum that covers Practical Application of Knowledge Team Collaboration and practical application through hands-on projects. These are precisely the skills believe will empower our students. The course was intended to

Cover:-

1. Problem-Solving Abilities
2. Project Management Skills
3. Career Readiness
4. Problem-Solving Abilities

The course began with the formal inaugural by lighting the lamp by the dignitaries. Principal Dr. Pandit Shelke, vice principal Dr. Shubhash Wavhal, HOD Prof. Ajay Gadhave and faculty of BBA(CA) department and student were present for this event.

The course began by Prof. Lokhande D. R. He gave brief introduction of project management. How to plan project.

Prof. Gadhave A. M. taught Project scheduling and resource management. He also taught Building and managing project teams.

I am confident that our students will complete the coursework and contribute to the dynamic learning environment.

About 70 students of BBA(CA) were attended the course. The queries of the students were very well handled by the speaker. The overall feedback of the course was very positive.

Program Report

Add-on Course on Fundamentals of Commercial Geography for FYBSc Students Academic year – 2023 - 2024

Prepared by: Mr. Sagar S. Bhosale

Introduction The course on "*Fundamentals of Commercial Geography*" serves as an essential add-on to the existing curriculum, offering students a comprehensive understanding of geographical principles, spatial relationships, and global perspectives. This report outlines the objectives, structure, implementation, outcomes, and future recommendations of the course.

Objectives

- 1. Introduction to Geography:** Provide a foundational understanding of geography as a discipline, covering its scope, branches, and relevance in today's world.
- 2. Spatial Analysis:** Teach students how to analyze spatial patterns, distributions, and processes using maps, GIS (Geographic Information Systems), and remote sensing technologies.
- 3. Physical Geography:** Explore the natural environment, including landforms, climate systems, biomes, and natural hazards, to understand Earth's physical processes.
- 4. Human Geography:** Examine human-environment interactions, population dynamics, urbanization, cultural landscapes, and economic activities across different regions.
- 5. Geopolitics and Global Issues:** Discuss geopolitical concepts, international relations, global challenges (like climate change, resource management, and sustainable development), and their spatial implications.

Course Structure

- **Duration:** Typically runs for one semester (30 Hours).
- **Delivery:** Combines lectures, practical exercises, fieldwork (where feasible), and case studies.
- **Assessment:** Includes assignments, quizzes, a midterm exam, and a final project.
- **Resources:** Utilizes textbooks, online resources, maps, and software tools (GIS and remote sensing software).

Implementation

- 1. Lecture Sessions:** Conducted weekly to cover theoretical concepts, illustrated with examples and case studies.

2. Practical Sessions: Hands-on exercises in GIS labs to analyze spatial data, interpret maps, and understand spatial relationships.

3. Fieldwork: Organized visits to local geographic features or urban areas to apply theoretical knowledge practically.

Outcomes

1. Knowledge Acquisition: Students gain a solid understanding of geographical concepts, theories, and analytical techniques.

2. Skills Development: Improved spatial analysis skills, critical thinking, and problem-solving abilities.

3. Awareness: Enhanced awareness of global issues, environmental challenges, and cultural diversity.

4. Career Readiness: Preparation for careers in geography, urban planning, environmental management, international relations, and related fields.

1.

Challenges

- **Resource Constraints:** Availability of GIS labs, software licenses, and fieldwork opportunities.
- **Curriculum Integration:** Ensuring alignment with existing courses and academic schedules.
- **Student Engagement:** Maintaining high levels of student interest throughout the semester.

Recommendations for Improvement

1. Enhanced Resources: Increase access to GIS facilities and software, ensuring all students have adequate hands-on experience.

2. Interdisciplinary Approach: Collaborate with other departments (like Environmental Science, Sociology) to offer a more integrated learning experience.

3. Industry Collaboration: Partner with GIS companies, environmental agencies, and urban planning firms to provide real-world projects and internships.

Conclusion The "*Fundamentals of Commercial Geography*" add-on course enriches students' educational experience by providing essential knowledge, skills, and perspectives needed to understand the world from a geographical standpoint. By addressing both physical and human aspects of geography and integrating practical applications, the course prepares students for a wide range of careers and fosters a deeper appreciation for the complexities of our planet and societies.

This report highlights the importance of geographical literacy in today's interconnected world and underscores the value of such add-on courses in higher education.

Add-on Course in *Fundamentals in Human Geography* for SYBA

Academic Year – 2023-24

Prepared by: Mr. Sandeep Shinde

Introduction :

The course on "*Fundamentals in Human Geography*" serves as an essential add-on to the existing curriculum, offering students a comprehensive understanding of geographical principles, spatial relationships, and global perspectives. This report outlines the objectives, structure, implementation, outcomes, and future recommendations of the course.

Objectives :

- 1. Introduction to Geography:** Provide a foundational understanding of geography as a discipline, covering its scope, branches, and relevance in today's world.
- 2. Spatial Analysis:** Teach students how to analyze spatial patterns, distributions, and processes using maps, GIS (Geographic Information Systems), and remote sensing technologies.
- 3. Physical Geography:** Explore the natural environment, including landforms, climate systems, biomes, and natural hazards, to understand Earth's physical processes.
- 4. Human Geography:** Examine human-environment interactions, population dynamics, urbanization, cultural landscapes, and economic activities across different regions.
- 5. Geopolitics and Global Issues:** Discuss geopolitical concepts, international relations, global challenges (like climate change, resource management, and sustainable development), and their spatial implications.

Course Structure:

- **Duration:** Typically runs for one semester (30 Hours).
- **Delivery:** Combines lectures, practical exercises, fieldwork (where feasible), and case studies.
- **Assessment:** Includes assignments, quizzes, a midterm exam, and a final project.
- **Resources:** Utilizes textbooks, online resources, maps, and software tools (GIS and remote sensing software).

Implementation :

- 1. Lecture Sessions:** Conducted weekly to cover theoretical concepts, illustrated with examples and case studies.
- 2. Practical Sessions:** Hands-on exercises in GIS labs to analyze spatial data, interpret maps, and understand spatial relationships.
- 3. Fieldwork:** Organized visits to local geographic features or urban areas to apply theoretical knowledge practically.
- 4. Projects:** Culminates in a final project where students analyze a geographical issue, present findings, and propose solutions.

Outcomes :

- 1. Knowledge Acquisition:** Students gain a solid understanding of geographical concepts, theories, and analytical techniques.
- 2. Skills Development:** Improved spatial analysis skills, critical thinking, and problem-solving abilities.
- 3. Awareness:** Enhanced awareness of global issues, environmental challenges, and cultural diversity.
- 4. Career Readiness:** Preparation for careers in geography, urban planning, environmental management, international relations, and related fields.

Future Recommendations :

- **Resource Constraints:** Availability of GIS labs, software licenses, and fieldwork opportunities.
- **Curriculum Integration:** Ensuring alignment with existing courses and academic schedules.
- **Student Engagement:** Maintaining high levels of student interest throughout the semester.

Conclusion :

The "*Fundamentals in Human Geography*" add-on course enriches students' educational experience by providing essential knowledge, skills, and perspectives needed to understand the world from a geographical standpoint. By addressing both physical and human aspects of geography and integrating practical applications, the course prepares

students for a wide range of careers and fosters a deeper appreciation for the complexities of our planet and societies.

This report highlights the importance of geographical literacy in today's interconnected world and underscores the value of such add-on courses in higher education.

Report on Add on course :Recent trends in IT

Academic Year 2023-24

Aiming to provide an intense interactive Add-on course **Recent trends in IT** for the students. The course was held in the academic year 2023-24 from 12/02/2024 to 20/03/2024 with aim of bringing awareness about Recent Trends in IT and highlighting the applications of Artificial Intelligence. We are impressed by the comprehensive curriculum that covers understanding Artificial Intelligence, Neural network and fuzzy sets and practical application. These are precisely the skills believe will empower our students.

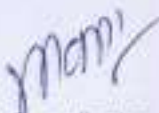

Course Objectives:-

1. To learn applications of Artificial Intelligence.
2. To learn various AI problems and AI problem characteristics.
3. To learn neural network and its applications.
4. To learn fuzzy set theory.

Course Outcomes:-

5. To learn about applications of AI Search and control strategies and various AI problems.
6. To develop the skills to design, analyze and perform experiments on real life problems using different Neural Learning Algorithms
7. To conceptualize fuzzy logic and its implementation for real world applications

Total 80 students of T.Y.BSc.(Computer Science) were attended the course. The queries of the students were very well handled by the lecturer. This course is very helpful for the students.

Department of Microbiology

Add on course on 'Bioinoculants- General Awareness'
S. Y. B. Sc. (2023-24)

COURSE REPORT

The department of Microbiology had organized an add on course in Microbiology on 'Bioinoculants- General Awareness' for S.Y.B.Sc. students (2023-24). Thirty-seven students were admitted for the course. Twenty-seven students had successfully completed the course. The duration of the course was two months requiring 30 hours. It was conducted from 1st February 2024 to 6th April 2024. Smt. Hemlata Sonawane, Head of the department guided for the successful completion of this course. Dr. Nita Patil coordinated all the activities of the course. Following teachers, Ms. Sayali Borawake, Ms. Priti Thopate and Ms. Shahin Pathan were teacher in charge of the course.

We had organised a study visit for the students on 26th February 2024 at 11.00a.m. to **Tricon Biochem Production** located at Dhumewadi, Saswad as a part of their add-on course. During the visit, the experts of the institute gave demonstrations of the techniques of isolation of plant growth promoting microbes, their characterization and mass production at flask level and at large scale in fermenter to our students.

The main aim of conducting this course was to create awareness among the students and their parents for the use of Biofertilizer technology in their fields. Students learnt identification, evaluation and mass multiplication of the efficient biofertilizer microorganisms from different crop rhizospheres. The certificates had been awarded to the students who had successfully completed the course.

Report on Add on course :Introduction To Ardiano Uno, IoT And It's Programming

Academic Year 2023-24

Aiming to provide an intense interactive Add-on course **Introduction To Ardiano Uno, IoT And It's Programming** for the students. The course was held in the academic year 2023-24 from 01/01/2024 to 06/02/2024 with aim of bringing awareness about Ardiano Uno and highlighting the applications of Ardiano Uno. We are impressed by the comprehensive curriculum that covers understanding Ardiano Uno, IoT and It's practical application. These are precisely the skills believe will empower our students.

Course Objectives:-

1. To learn and understand basics of Internet of Things.
2. To study applications of IoT

Course Outcomes:-

1. Understand working principles of short range communication application.
2. Get introduce to upcoming technology of Internet of Things.
3. Explore themselves and develop new IoT based applications

Total 165 students of F.Y.BSc.(Computer Science) and S.Y.B.Sc(Computer Science) were attended the course. The queries of the students were very well handled by the lecturers. This course is very helpful for the students.

Report on Add-On Course: Basics of Stock Market

Duration: 4 August 2023 - 23 August 2023

Participants: 202 FY B.Com Students

1. Introduction

The add-on course on Basics of Stock Market was designed to provide first-year B.Com students with a foundational understanding of key legal concepts and issues. The course aimed to equip students with knowledge that would be valuable in both their academic and professional lives.

2. Course Objectives

After successfully completing this course, students will be able

- CO1.To understand the terms used in Stock Market.
- CO2.To understand the various technical indicators of chart
- CO3.To learn how to read chart
- CO4.To independently decide the trend in the market
- CO5.To independently take trade in the market

3. Course Structure and Content

The course was conducted over 15 days, with a total of 30 hours of instruction. The content covered included:

1. Stock Market
2. History of Stock Market
3. Different Segments of Stock Market
4. Types of analysis in Stock Market
5. Types of Charts
6. Chart Analysis
7. Time Frames

4. Methodology

The course was delivered through a combination of lectures, interactive sessions, and case studies.

5. Student Participation

A total of 247 students attended the course. The participation was enthusiastic, with students actively engaging in discussions and Q&A sessions.

6. Conclusion

The add-on course on Basics of Stock Market was successfully conducted, meeting its objectives and providing valuable knowledge to the students. It has set a strong precedent for similar courses in the future.

8. Acknowledgments

We would like to thank all the guest speakers, faculty members, and students for their active participation and contribution to the success of the course.

Add on course on 'Techniques in Microbiology'
F. Y. B. Sc. (2022-23)

COURSE REPORT

The department of Microbiology had organized an add on course in Microbiology on 'Techniques in Microbiology' for F. Y. B. Sc. students (2022-23). Twenty-five students were admitted for the course and had successfully completed the course. The duration of the course was two months requiring 30 hours. It was conducted from 7th February 2023 to 28th March 2023. Smt. Hemlata Sonawane, head of the department guided and coordinated all the activities of this course for the successful completion of the course. Following teachers, Ms. Sayali Borawake, Ms. Priti Thopate and Ms. Shahin Pathan were teacher in charge of the course.

The students learned various methods used for the study of microbes, including bacteria and microscopic fungi and protists. The course included methods to survey, culture, stain, identify, engineer and manipulate microbes. The certificates had been awarded to the students who had successfully completed the course.

Add-on Course on

Career Opportunities in Banking & Finance

Report

Introduction:

Department of Economics, Waghire College Saswad organised add on course on Career Opportunities in Banking & Finance in academic year 2022-23 Period was 16 Jan 2023 to 28 February 2023. The field of banking and finance is a dynamic sector that offers a wide range of career opportunities. With globalization and advancements in technology, banking and finance have become more sophisticated, and new job roles are emerging every day. This report is a summary of a 30-hour add-on course, which was attended by 40 students of arts faculty, to provide insights into the various career opportunities that are available in banking and finance.

Discussion:

During the 30-hour course, students were introduced to various career opportunities in the banking and finance sector. We discussed the roles of investment bankers, commercial bankers, risk managers, wealth managers, and financial planners among others. The course covered the qualifications and skills required for each of these roles.

Investment Banking:

Students learned that investment bankers specialize in providing financial advice to organizations and government entities interested in buying or selling assets. Due to the high stakes involved, people who are meticulous, analytical and have excellent interpersonal skills can excel in this role.

Commercial Banking:

Commercial bankers serve individuals and businesses with a wide range of financial services, including setting up accounts, offering credit facilities such as loans, and providing financial guidance. Good communication and relationship-building skills are key for success in this field.

Risk Management:

Risk management involves analyzing potential risks associated with financial investments and transactions, and developing solutions to minimize the risks. Due to the ever-changing nature of the field, risk managers must be good planners with strong analytical skills.

Wealth Management:

Wealth managers advise clients on investment opportunities, asset allocation, and risk

management. This role demands excellent customer service and communication skills, as well as a passion for finance and investments.

Financial Planning:

Financial planners assist individual clients who need help with setting and achieving financial goals. They provide guidance on personal finance, retirement planning, and investment strategies. Financial planners must be well-versed in tax, insurance, and financial planning strategies.

Conclusion:

In conclusion, the course provided a comprehensive overview of the numerous career opportunities available in the banking and finance sector. We hope the students gained an understanding of the roles and skills required to excel in the field. The ever-evolving nature of banking and finance means that there is always a high demand for skilled professionals in the industry, and by attending this course; students have opened up a range of career opportunities for themselves.

Report

**Add on course: Basics of English Grammar
(01/02/2023 to 20/02/2023)**

The add on course in Basics of English Grammar, conducted from **Feb 1, 2023, to Feb 20, 2023**, aimed to enhance the English language skills of the participants, focusing on grammar, vocabulary, listening, speaking, reading, and writing. The course was structured to provide a comprehensive learning experience through a series of lectures and practical sessions led by esteemed faculty members. Dr. Sanjay Zagade introduced the foundational concepts of English Grammar, emphasizing the importance of English grammar in the competitive examinations and professional contexts. Dr. Puneekar provided an in-depth overview of essential grammar rules, including sentence structure, tenses, and common grammatical errors. Dr. R.B. Dhakane's session focused on vocabulary enhancement and the LSRW (Listening, Speaking, Reading, and Writing) skills. Participants engaged in activities designed to expand their vocabulary and improve their overall language proficiency. Prof. Shinde highlighted the importance of active listening and comprehension skills. Prof. Khare's session was dedicated to developing effective writing skills. Prof. Misal explored the cultural dimensions of language use and the impact of social interactions on communication.

Basics of English Grammar course successfully provided **55 participants** with a solid foundation in English Grammar. The varied topics and expert faculty ensured a well-rounded learning experience, preparing participants to communicate effectively in diverse contexts.

B.Voc Retail Management

Report on Add-On-Course 2022-23
Subject: Digital Marketing

PDEA's Waghire College of Arts, Commerce, and Science organized a 15-days add-on course on Digital Marketing as part of the B.Voc Retail Management program. This course was conducted by Professors Jagdale D.M, Professors Wadhane S.S, and Professors Tople S.R. aiming to equip students with essential digital marketing skills relevant to the retail industry.

The Course Objectives

The course aimed to:

- Introduce students to the basics of digital marketing.
- Provide practical skills for applying digital marketing in retail.
- Enhance students' ability to use digital marketing tools effectively.

Course Highlights

Practical Training: The course included hands-on projects and exercises that allowed students to apply the concepts learned.

Interactive Sessions: Each module featured interactive discussions, case studies, and Q&A sessions to enhance understanding.

Comprehensive Coverage: The curriculum covered all major aspects of digital marketing, providing students with a well-rounded understanding of the field.

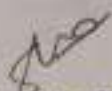

Expert Guidance: Students benefited from the extensive industry experience and academic knowledge of the instructors.

Certification: Upon completion, students received a certificate recognizing their proficiency in digital marketing for retail.

B.Voc Computer Software Development

Report on Add-On-Course 2022-23
Subject: Operating System

PDEA's Waghire College of Arts ,Commerce and Science, Saswad. B.Voc Computer software Development organised Add-on-course on the topic "Operating System" Dated from 02 Jan to 18 Jan 2023.

Aiming to enhance the operating system knowledge of the students and prepare them to improve their abilities, extend the knowledge. Add-on course is the short-term training program that are designed to supplement to core curriculum of a degree program.

The course covered the following points:-

1. Introduction to Operating System .
2. **Hardware** :Computer system and components, storage devices.
3. **Software** :Operating systems, programming and application software
4. System Structure
5. Process Management
6. CPU Scheduling
7. Process Synchronization
8. Memory Management

The course contains total 30 hrs . Faculty of B.Voc Computer Software Development gives knowledge of operating system to the students in detail. Prof Swati Samgeer conduct total 5 days lecture on the topics introduction to operating system and system structure. Next 5 days Prof Jarande Punam guide the students on the topics process management and CPU Scheduling. And at the last session Prof Shevate Ashwini covers the Process Synchronization and Memory Management topics. There are total 25 students were present for this course.

Report on Add on course

Aiming to provide an intense interactive Add-on course **Software Project Development Skill** for the students. The course was held in the academic year 2022-23 from 01/02/2023 to 20/02/2023 with aim of bringing awareness about entrepreneurship and highlighting opportunities. We are impressed by the comprehensive curriculum that covers Understanding Office Technology, Learning Office Software, and practical application through hands-on projects. These are precisely the skills believe will empower our students. The course was intended to

Cover:-

1. Career Readiness
2. Effective Communication Skills
3. Document Management
4. Data Analysis and Reporting

The course began with the formal inaugural by lighting the lamp by the dignitaries. Industry expert Mr. Diwar Akshay and Principal Dr. Pandit Shelke, vice principal Dr. Shubhash Wavhal, HOD Prof. Ajay Gadhave and faculty of BBA(CA) department and student were present for this event.

The course began by Introduction of Business communication by Prof. Lokhande D. R. They cover all the points of oral and written communication. He taught students how to develop interview skills, how to make oral presentation.

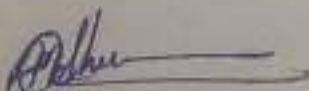

Prof. Kale M.A. taught how to write a resume, How to write a job application & ways to draft a letter.

Prof. Gadhave A.M. gave information on how to choose project topics and how to write synopsis.

Industry Expert Mr. Akshay Dhiwar delivered in depth information about Front & Back end Technology. What is software analysis, Software design & coding.

I am confident that our students will complete the coursework and contribute to the dynamic learning environment.

About 88 students of BBA(CA) were attended the course. The queries of the students were very well handled by the speaker. The overall feedback of the course was very positive.

Program Report

Add-on Course on Fundamentals of Geography for FYBSc Students Academic year – 2022-2023

Prepared by: Mr. Sagar S. Bhosale

Introduction:

The Add-on Course on Fundamentals of Geography was introduced for First Year Bachelor of Science (FYBSc) students at Waghare College of Arts, Commerce & Science, Sionad to provide foundational knowledge and skills in geography. This report aims to present an overview of the program, including its objectives, curriculum, implementation, outcomes, and recommendations for future enhancements.

Objectives:

- Foundational Knowledge:** Introduce basic geographical concepts, principles, and theories to FYBSc students.
 - Skill Development:** Develop spatial awareness, map-reading skills, and analytical thinking crucial for scientific and environmental studies.
 - Career Readiness:** Equip students with geographical knowledge applicable to various scientific disciplines and future career paths.
-

Curriculum:

The curriculum of the Add-on Course on Fundamentals of Geography includes the following key components:

- Introduction to Geography:** Overview of physical geography, human geography, and geographic techniques.
 - Geographical Concepts:** Study of landforms, climate, vegetation, population, settlement patterns, etc.
 - Practical Skills:** Map interpretation, GIS (Geographic Information System) basics, fieldwork techniques.
 - Current Issues:** Exploration of contemporary geographical issues such as climate change, urbanization, and sustainability.
-

Implementation:

- **Course Delivery:** Conducted over a semester, comprising lectures, practical sessions, and field visits.
- **Faculty Expertise:** Experienced faculty members from the Department of Geography with specialization in fundamental geography and geographical techniques.
- **Resources:** Access to library resources, digital maps, and geographic databases to support learning and research.

Outcomes:

1. **Enhanced Understanding:** Improved understanding of fundamental geographical principles and their relevance to scientific studies.
1. **Skill Acquisition:** Development of practical skills in map reading, spatial analysis, and geographic data interpretation.
1. **Positive Feedback:** Encouraging feedback from students regarding the course's relevance, applicability, and contribution to their academic journey.

Recommendations for Future Enhancements:

1. **Expansion of Practical Components:** Increase hands-on learning experiences through more fieldwork and GIS exercises.
1. **Integration with Other Sciences:** Explore opportunities to integrate geographical concepts with other sciences taught in the FYBSc curriculum.
1. **Career Guidance:** Offer additional sessions on career paths in geography-related fields and opportunities for further study.

Conclusion:

The Add-on Course on Fundamentals of Geography for FYBSc students at Wagaire College of Arts, Commerce & Science, Saswad has successfully provided foundational knowledge and practical skills in geography, enhancing students' academic experience and career readiness. Moving forward, continued enhancements and integration with the main curriculum will further strengthen the program's impact and benefit future cohorts of students.

This report summarizes the successful implementation, outcomes, and recommendations for the Add-on Course on Fundamentals of Geography, emphasizing its importance in the academic and professional development of FYBSc students at Wagaire College of Arts, Commerce & Science, Saswad.

Report on Add on course : Mobile Technologies

Academic Year 2022-23

Aiming to provide an intense interactive Add-on course **Mobile Technologies** for the students. The course was held in the academic year 2022-23 from 20/02/2023 to 31/03/2023 with aim of bringing awareness about different mobile Operating Systems and building android applications from scratch. We are impressed by the comprehensive curriculum that covers understanding Mobile technologies, Learning android app development and practical application. These are precisely the skills believe will empower our students.

Course Objectives:-

1. Students should learn the Android Fundamentals and Android architecture framework.
2. Students should understand GUI Design concepts and design Android GUI Layout.
3. Students should be able to design visually appealing and intuitive user interfaces for Android apps, using appropriate layouts, widgets, and styles.

Course Outcomes:-

1. To provide students with a solid understanding of the mobile app development, Android operating system, its architecture, components, and the software development kit (SDK).
2. To teach students how to build Android applications from scratch, including UI design, handling user interactions, and integrating various features.
3. To learn about Android's UI components, layouts, and design principles to create visually appealing and user-friendly interfaces

Total 60 students of T.Y.BSc.(Computer Science) were attended the course. The queries of the students were very well handled by the lecturer. This course is very helpful for the students.

Report on Add-On-Course 2022-23
Subject: Team Building

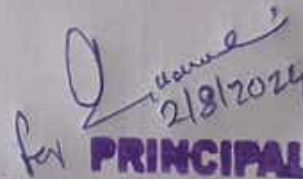

PDEA's Waghire College of Arts, Commerce and Science, Saswad. B.Voc (Retail Management, Tourism & Hospitality Management, Food Processing & Technology, Computer Software Development and GST & Tally) organised Add-on-course on the topic "Team Building" Dated from 01/02/2023 to 17/02/2023

Team building is an essential part of management and team work teaches essential of communication and social skills such as active listening and effective speaking. When working as a team, students learn how to listen to their leaders in order to perform their individual roles. Students learn how to listen to one another in order to function as a cohesive unit. Teamwork teaches students how to respectfully and confidently express their ideas and opinions effectively in a group setting.

This course covered communication skills, trust building, problem Solving and team decision making, conflict resolution, creativity and innovation, goal setting and time management.

The course contains total 30 hrs .Faculty of B.Voc gives knowledge on team building to the students in detail. This course was conducted by Professors Jagdale D.M, Prof. Bhutkar H. V., Prof. Samgir S. B., Prof. Gaikwad P.H., Prof. Tidke S.D. aiming to equip students with essential team building skills relevant to the retail industry. There is total 333 students were present for this course.

Add-on Course on Watershed Development Program

Report

Introduction: Waghire College Saswad organised add on course on 'Watershed Development Program' in academic year 2022-23 Period was 06-10-2022 to 22-10-2022. This course is aimed at providing you to balance the conservation, re generation and use by humans of land and water resources within a watershed. Common benefits from successful watershed development projects include improved agricultural yields and increased access to drinking water.

Course Overview:

- **Duration:** The course spanned 30 Hours (Period 06-10-2022 to 22-10-2022)
- **Objective:** To understand the key concepts of Common benefits from successful watershed development projects include improved agricultural yields and increased access to drinking water
- **Topics Covered:** The course covered areas such as Water conservation and efficiency, Water budget, Water harvesting and recycling, Water conservation and efficiency.
- **Student Participation:**
- **Total Number of Students:** 232 students from the Arts faculty participated in the course.
- **Engagement:** Students actively participated in discussions, group activities, and presentations throughout the course.
- **Diverse Backgrounds:** The cohort of students brought diverse perspectives and backgrounds, enriching the learning experience.

Key Learnings:

1. Water Source Conservation
2. Maintenance of Conservation
3. Run-off harvesting dams
4. Reduce soil erosion

Outcomes:

The outcomes are prevention of soil erosion, regeneration of natural vegetation, rain water harvesting and recharging of the ground water table.

Conclusion:

In conclusion, both environmental and human factors influence how well a watershed can be managed. Physical, financial, and institutional issues work together to either facilitate or hinder management efforts.

Program Report
Add-on Course in Competitive Geography for SYBA
Academic Year – 2022-23

Prepared by: Mr. Sandeep Shinde

Introduction :

The Add-on Course in Competitive Geography was introduced for SYBA students at Waghire College of Arts, Commerce & Science, Saswad with the aim of enhancing their geographical knowledge and skills relevant to competitive examinations. This report aims to provide an overview of the program's objectives, curriculum, implementation, outcomes, and future recommendations.

Objectives :

1. **To Enhance Geographical Knowledge :** Provide in-depth knowledge of geographical concepts and topics crucial for competitive exams.
2. **Skill Development :** Develop analytical and problem-solving skills through practical applications of geographical theories.
3. **Exam Preparation :** Equip students with strategies and techniques to excel in competitive exams requiring geographical proficiency.

Curriculum :

The curriculum of the Add-on Course in Competitive Geography covered the following key areas:

- 1) **Physical Geography :** Climate, geomorphology, biogeography, etc.
- 2) **Human Geography :** Population studies, economic geography, urbanization, etc.
- 3) **Geographical Techniques :** Cartography, GIS applications, remote sensing.
- 4) **Current Affairs :** Recent developments in geography, environmental issues.

The course structure included lectures, practical sessions, guest lectures from experts, and field visits to geographical sites of importance.

Implementation :

- i) Course Delivery :** Conducted over a semester, comprising 30 Lectures of 45 minutes.
- ii) Faculty :** Experienced faculty members with expertise in competitive exam preparation and geographical studies.
- iii) Resources :** Access to library resources, digital maps, and online databases to support learning, Open source Software.

Outcomes :

- 1. Enhanced Knowledge Base :** Students gained a deeper understanding of geographical concepts relevant to competitive exams.
- 2. Skill Acquisition :** Improved analytical and problem-solving skills through practical applications and field visits.
- 3. Exam Success :** Increased confidence and preparedness among students for competitive examinations.
- 4. Feedback :** Positive feedback from students regarding the relevance and usefulness of the course in their academic and career pursuits.

Future Recommendations :

- 1. Expansion of Course Offerings :** Introduce advanced levels of the course for higher years or specialized topics in geography.
- 2. Integration with Regular Curriculum :** Explore options to integrate elements of competitive geography into the main BA Geography curriculum.
- 3. Career Guidance :** Provide additional career counseling and guidance for students interested in pursuing competitive exams or careers in geography.

Conclusion :

The Add-on Course in Competitive Geography has been instrumental in equipping SYBA students with the necessary knowledge and skills for competitive examinations. It has received positive feedback for its

comprehensive curriculum, effective delivery, and tangible outcomes. Moving forward, the course can be further developed and expanded to better serve the needs of students and the evolving landscape of competitive examinations in geography.

This report summarizes the successful implementation and outcomes of the Add-on Course in Competitive Geography, highlighting its significance in enhancing students' academic and career prospects.

Report on Add-On Course: Legal Awareness

Duration: 1st November 2022 - 19th November 2022

Participants: 202 FY B.Com Students

1. Introduction

The add-on course on Legal Awareness was designed to provide first-year B.Com students with a foundational understanding of key legal concepts and issues. The course aimed to equip students with knowledge that would be valuable in both their academic and professional lives.

2. Course Objectives

1. To introduce students to the basics of the legal system.
2. To create awareness about various laws and regulations relevant to commerce and business.
3. To empower students to understand their legal rights and responsibilities.

3. Course Structure and Content

The course was conducted over 15 days, with a total of 30 hours of instruction. The content covered included:

1. Rights of Children with special emphasis on Cyber Law
2. Overview of The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal)
3. Right to Information Act 2005
4. Right of Daughters in Hindu Joint family property post Hindu Succession (Amendment) Act.2005
5. Overview of Laws for Protection of Women
6. Overview of Indian Criminal Justice System
7. Overview of Maintenance and Welfare of Parents and Senior Citizens Act, 2007

Head-Department of Commerce
Waghire College, Saswad

Principal

4. Methodology

The course was delivered through a combination of lectures, interactive sessions, and case studies.

5. Student Participation

A total of 247 students attended the course. The participation was enthusiastic, with students actively engaging in discussions and Q&A sessions.

6. Conclusion

The add-on course on Legal Awareness was successfully conducted, meeting its objectives and providing valuable knowledge to the students. It has set a strong precedent for similar courses in the future.

8. Acknowledgments

We would like to thank all the guest speakers, faculty members, and students for their active participation and contribution to the success of the course.

Add-on Course on
"Good Laboratory Practices and Industrial Safety"

Report

Academic Year: 2022-2023

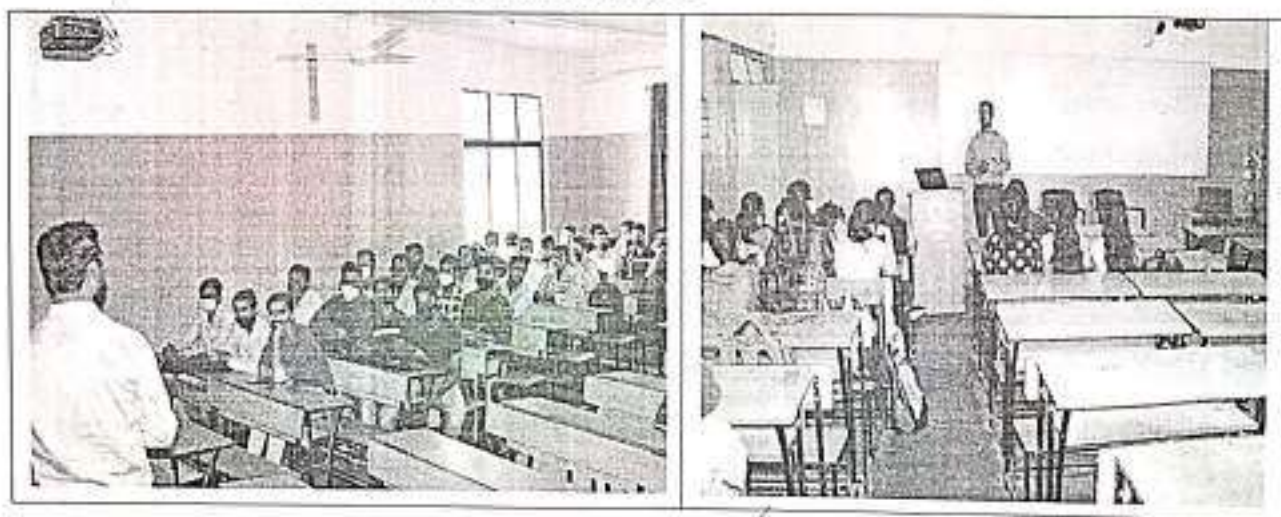

The Science Faculty conducted add-on course entitled, "Good Laboratory Practices and Industrial Safety" for PG (Organic Chemistry, Analytical Chemistry, Microbiology and Botany) students on 21st Nov. to 01st Dec. 2022.

The add-on course has been designed according to need of awareness about Good Laboratory Practices and Industrial Safety. The add on course structure containing 15 Theory lectures and 15 Practical hours that means 2 credit course. Total 174 students of post graduation departments of Science faculty were participated in this add-on course.

In this course mainly covered following objectives,

• Objectives :

- 1) To create understanding of Good Laboratory Practices and Industrial Safety
- 2) To create General Awareness of Industrial Safety
- 3) To create manpower related to Industrial Safety

Department of Microbiology

Add on course on 'Comparative study of various disinfectants'
F. Y. B. Sc. (2021-22)

COURSE REPORT

The department of Microbiology had organized an add on course in Microbiology on 'Comparative study of various disinfectants' for F. Y. B. Sc. students (2021-22). Twenty-six students were admitted for the course and had successfully completed the course. The duration of the course was two months requiring 30 hours. It was conducted from 14th March 2022 to 25th April 2022. Smt. Hemlata Sonawane, head of the department guided and coordinated all the activities of this course for the successful completion of the course. Following teachers, Ms. S. M. Rane, Ms. K. S. Kamthe and Ms. P. P. Musale had taught the students.

On the onset of CORONA pandemic, the students learnt to evaluate and compare the practically the efficacy of some locally available disinfectants for disinfection of surfaces, hands and infectious microbiological waste. The certificates had been awarded to the students who had successfully completed the course.

Report on Add on course : Artificial Intelligence

Academic Year 2021-22

Aiming to provide an intense interactive Add-on course **Artificial Intelligence** for the students. The course was held in the academic year 2021-22 from 03/01/2022 to 08/02/2022 with aim of bringing awareness about Recent Trends in Artificial Intelligence and highlighting the future of AI. We are impressed by the comprehensive curriculum that covers understanding Artificial Intelligence, Learning new trends in Artificial Intelligence, and practical application. These are precisely the skills believe will empower our students.

Course Objectives:-

1. To learn various types of algorithms useful in Artificial Intelligence.
2. To understand the numerous applications and huge possibilities in the field of AI that goes beyond the normal human imagination

Course Outcomes:-

1. Evaluate the advantages, disadvantages, challenges, and ramifications of human-AI augmentation.
2. Design user interfaces to improve human-AI interaction and real-time decision-making.

Total 59 students of T.Y.BSc.(Computer Science) were attended the course. The queries of the students were very well handled by the lecturer. This course is very helpful for the students.

"Chemical Analysis: Techniques Used"

Report

Academic Year:2020-2021

The Department of Chemistry conducted add-on course entitled, "Chemical Analysis: Techniques Used" for F.Y.B.Sc. students. It has been prepared taking into consideration its importance in different fields. The add-on course of 2 Credits designed to inculcate theoretical and practical basics of instrumental techniques used in chemical analysis of different types of samples from industry, agriculture, market etc. 40 F.Y.B.Sc. students of chemistry background enrolled for the course. The course is divided in to two parts theory and practical. The online theory lectures conducted from 3rd March to 20th March 2021 on Zoom platform. The practicals conducted online from 15th June to 19th June 2021 on Zoom platform. Finally Online examination conducted.
