Bridge Course Syllabus

Subject: Basic Fundamentals of Computer Application

Course Objectives

- 1.1 The core objective of the B.Voc (Bridge Course) program is to bridge the gap between subjects studied at the 12th level and subjects they would be studying in B.Voc (CSD).
- 1.2 This course is an introduction to students to understand fundamentals of computer.
- 1.3 The course also gives students an idea about various components of computer, hardware and its working.
- 1.4 To make students understand computer hardware fundamentals.
- 1.5 To make students understand various components of computer and their Working.
- 1.6 To make students understand the importance and use of operating system.
- 1.7 To explain various types of operating system architecture.

Course Outcomes -

- 1.1 The students are expected to be able to understand fundamentals of computer and basic Computer Language.
- 1.2 After studying the course, students will be able to understand how computer works and the importance of various components of computers.
- 1.3 This course will also help students to appreciate the role of various operating systems. After successful completion, students will be able to select particular co

Report on Bridge Course

Bridge courses help bridge the gap between the curriculums of the previous educational system with the new system, ensuring that students have a developed foundation in the subjects they will encounter in the new system, thereby minimizing the challenges of knowledge gaps.

Course Objectives:

- The core objective of the program is to bridge the gap between subjects studied at the 12th level and subjects they would be study in 3 years of graduation.
- This course is an introduction to students to understand fundamentals of computer.
- This course also gives students an idea about various components of computer, hardware and its working.
- To understand the importance and use of operating system.

Course Outcomes:

- Expected that the students are able to understand fundamentals of computer and basics of computer language.
- After studying the course, students will be able to understand how computer works and the importance of various components of computer.
- This course will also help students to appreciate the role of various operating systems.

The topics covered in the bridge course are-

1. Fundamentals of computer
2. Software
3. Introduction to operating system
4. Computer programming concepts
5. Basic concepts of DBMS

The bridge course duration was 3/10/2023 to 13/10/2023. Total 10 days session was conducted to to understand fundamentals of computer and basics of computer language.

The first 2 days session was conducted by Prof swati sangeer madam (HOD of Bvoc[CSD] department). In which mam covered the '**Introduction to Operating System**' topic .In that session various points are explained to students such that-

- ❖ Purpose of operating system.
- ❖ Functions and role of operating system.
- ❖ Various types and structure of operating system.

- ❖ Services of operating system.
- ❖ System components.

About 43 students were attended this session.

The second 4 days session was conducted by Prof. Ashwini Shevate. In her session there was two topics covered '**Fundamentals of computer**' and '**Software**'. During this session following point was covered

- ❖ Functional blocks of computer .
- ❖ CPU, ALU, Memory Unit.
- ❖ Bus structure of Digital Computer.
- ❖ Introduction and features of LINUX OS.
- ❖ MS-ACCESS
- ❖ Networking concept.
- ❖ Basic elements of a communication system
- ❖ Data transmission media
- ❖ Topologies

About 40 students were attended this session.

The last 4 days session was conducted by Prof. Punam Jarande. In this session there was two topics covered '**Computer programming concepts**' and '**Basic concepts of DBMS**'.

During this session following point was covered

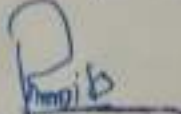

- ❖ Use of character set .
- ❖ Meaning of keywords and identifiers.
- ❖ Role of data types, constant and variables.
- ❖ Different types of operators and their precedence.
- ❖ Conditional Statements.
- ❖ Looping Statements.
- ❖ Overview of database management system
- ❖ Limitations of data processing environment
- ❖ DBMS structure

About 40 students were attended this session.

The all of the concepts of bridgecourse was very well explained to the students. After completion of this session there were one objective test was conducted on all topics. The test was about 50 marks in which total 25 questions were asked. The response of the students was very positive.
